

Course Code CP 015A

ISO 29001:2020 Appreciation, Interpretation and Implementation – Basic Module

(duration 8 Hours)

This course has been developed to guide participants in the understanding and interpreting the requirements of ISO 29001, providing the knowledge bases necessary for its application.

COURSE CONTENTS

Rereview of the requirements of ISO 29001:2020 with the aim of understanding them in order to be able to implement them in practice, through:

- Reading the requirement;
- Contextualisation of the same, in an operational reality;
- Exercises.

TO WHOM IT IS DEDICATED:

Employees, Collaborators and Consultants of Organisations that manufacture parts components, equipment and/or provide services (e.g. engineering, non-destructive testing) on Oil & Gas world.

All personnel involved on the development and or assessment of a QMS in compliance with ISO 29001:2020.

All persons interested wish to become familiar with this standard.

COURSE MATERIALS:

Course handout (PDF)
